Payment Systems

Office console software  
with optional eftpos Terminal

## FUTURE PROOF PAYMENT TECHNOLOGY

- Accept all scheme credit and debit cards including contactless cards & mobile payments such as Apple Pay and Google Pay
- Accept eftpos (CHQ/SAV) debit cards. Eftpos still makes up 50% of payment transactions. Don't miss out!
- Supports local card (white cards) with discounts, automated email receipts and cardless activation of pumps
- Web portal for configuration, price change, status alerts and reporting

## RELIABILITY IS EVERYTHING

- Corrosion resistant aluminium design
- State of the art industrial PC and components for maximum reliability in the field
- NBN ready & optional 4G modem for backup
- Remote diagnostic and support capability including alert monitoring
- Designed and manufactured in Australia by Quest with local support for peace of mind
- VOIP help phone direct to your office or mobile
- Local dispatch of replacement parts for maximum uptime

FastFuel OPT with optional  
Premium Weather Canopy

## SIMPLE AND CONVENIENT

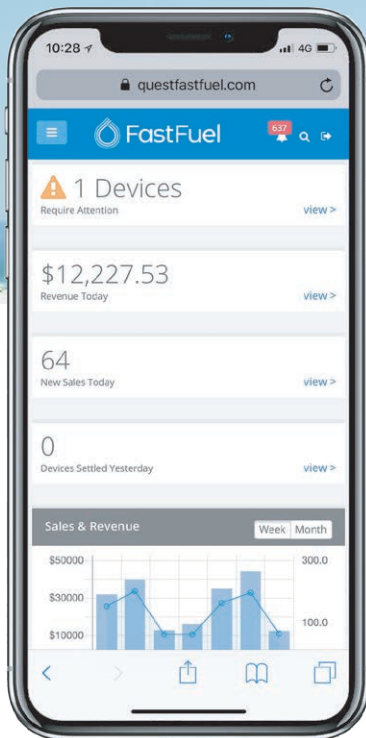

- Large 12.1" intuitive touch screen for easy operation
- SMS or email receipts
- Office console software for remote pump authorisation with optional integrated EFTPOS for accepting card payments
- Customisable promotional screens and branding options including audio messages
- Support for multi-hose dispensing in one payment transaction
- Multiple mounting options including pedestal, wall mount and floating dock mounts
- Supports most major pump protocols and IFSF electronic pricing boards via optional FDM

## REDUCED OPERATING COSTS

- No more phone line rental costs - use your existing broadband internet
- Lower Merchant Services Fees
- Least cost routing of contactless transactions
- Proactive alerts for preventative maintenance

# BE THERE, WITHOUT BEING THERE!

The FastFuel web portal leads the way when it comes to easy management of your fuel sales. Access is a breeze from any internet connected device, including tablets and smartphones.

FastFuel Portal on smartphone

## PORTAL FEATURES

### DASHBOARD

- Monitor device status
- Sales summary
